Vic Zoren Abucot

0968-656-9143 | vicabucot1234@gmail.com | https://senior-zoren.github.io/my-portfolio

Reliable and detail-oriented Full-Stack Web Developer with hands-on experience in designing, implementing, and managing web applications and internal tracking systems. Proficient in a wide range of technologies, including PHP frameworks, database management, frontend tools, and public sector IT security focal operations.

EDUCATION

Eastern Visayas State University Tacloban City
Bachelor of Science in Information Technology (Cum Laude) *2021 – 2025*

EXPERIENCE

Computer Programmer 1 Sept. 2025 – Present
Department of Information and Communications Technology

- Developed and managed core web applications including DART 2.0, CHRONO, and Scheduler.
- Assigned as Acting Focal Person of the National Security Operations Center (NSOC), overseeing operational tracking and system reliability.
- Collaborated with department teams to optimize database performance, streamline workflows, and ensure robust web application security.

GIP - Programmer July 2025 – Aug. 2025
Department of Labor and Employment (Assigned at DICT)

- Engineered and launched the DICT Accomplishment Report Tracker (DART) system to digitize and monitor routine departmental output.
- Gathered requirements and worked closely with end-users to ensure software solutions met organizational operational standards.

PERSONAL PROJECTS

App Repo 2026
Independent Binary Asset & Hosting Manager

- Initiated and built a repository tool during the development of CHRONO to bypass GitHub's 100MB binary upload limit, facilitating seamless hosting and distribution of large system files.

VRS (Vehicle Reservation System) 2026
Automated Fleet Management Application

- Engineered a web application to streamline vehicle booking workflows, driver assignments, and real-time fleet availability tracking.

NutriCall 2026
Nutritional Monitoring Portal (In Active Development)

- Currently designing and developing a full-stack web platform aimed at managing nutritional tracking, user scheduling, and service consultations.

SKILLS

Full-Stack Web Development, PHP Frameworks, Database Management (MySQL/SQL), Frontend Web Tools (HTML5, CSS3, JavaScript), Version Control (Git/GitHub), System Architecture & Planning, Responsive Web Design, Graphic Editing & Creation, Problem-Solving & Debugging.
